Figures unaudited. Cost of goods includes the olive oil price spike (+18% on Q2); see slide 4.

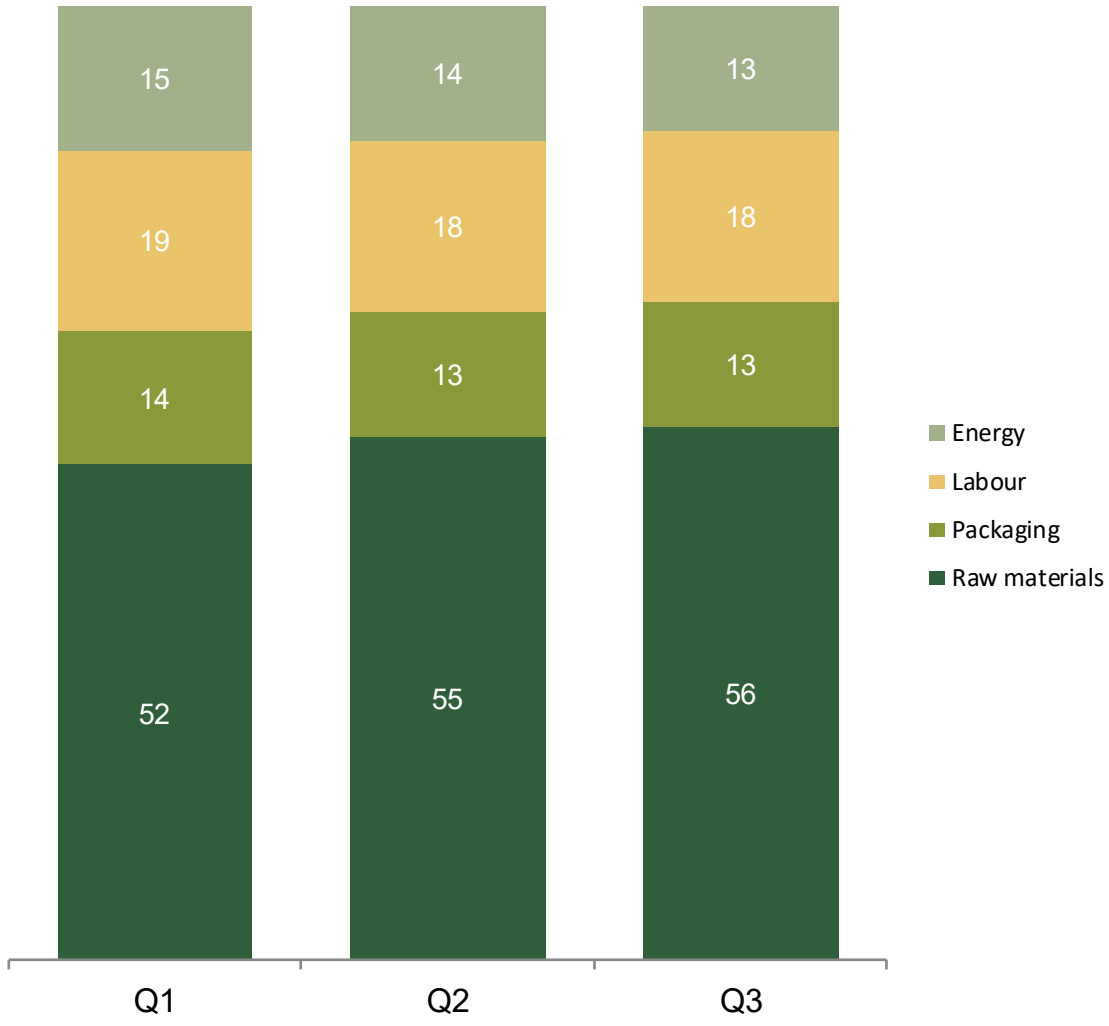

Sales grew while margin recovered

September was the best month on record: €13.6M, driven by the new cold-chain contract with Norte Logistics.

Margin bottomed in April at 30.2% and is back to 33.0% after the June price increase.

Where each euro of cost goes

Raw materials

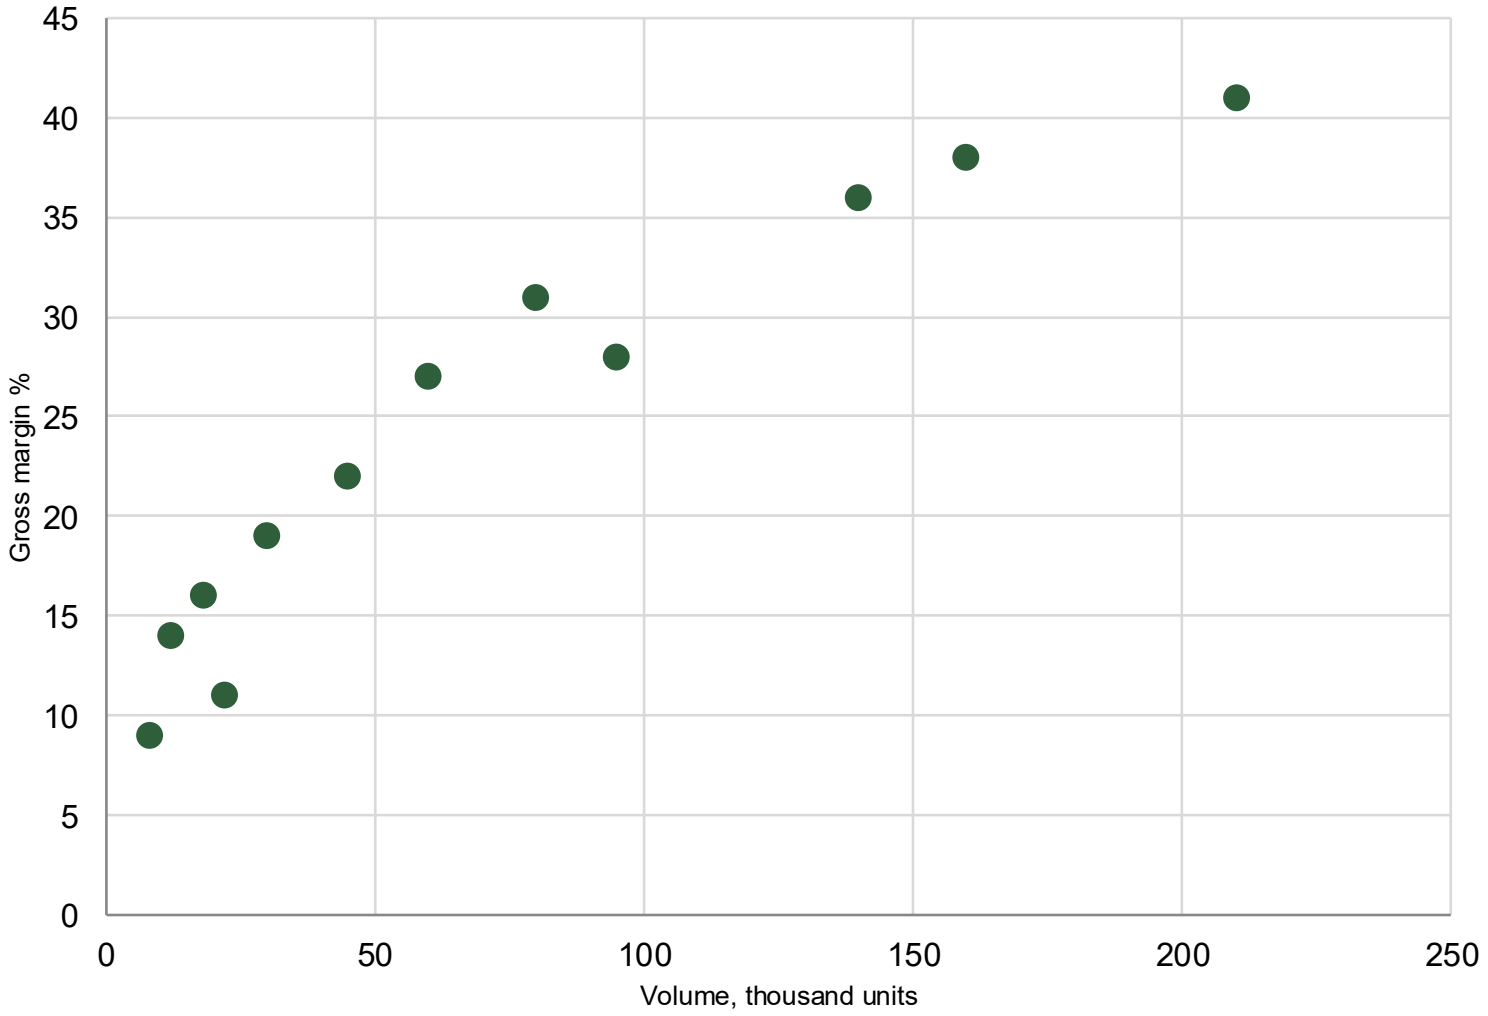

Olive oil rose 18% in Q2 and stayed there. We locked 60% of 2027 volume at €7.10/kg in October.

Energy

Solar roof at Écija came online in July: energy fell from 15% to 13% of cost.

Share of total cost of goods, by quarter. Q3 2026.

SKU review: low-volume, low-margin products to cut

4 SKUs below 20% margin and 25k units
Cutting them frees one packing line and loses 2.1% of sales.
